aboutROOST

Roost started with a man and a chicken sandwich.

Ryan Bird made one for his old roommate, who decided on the spot it was the best he'd ever had. Never one to deny the opportunity to turn a casual comment into a career, Ryan created ROOST. He knows chicken. Bird is his middle name, er...last name.

Now nestled comfortable at 1451 O Street, ROOST creates the world's most original and intense gourmet sandwiches, pasta bowls and salads all revolving around fresh, steam-seasoned, super-tender, all white meat chicken breasts. We bake the bread fresh daily, shred the romaine lettuce in house and use farm fresh roma tomatoes. Our pasta bowls are made with all natural Cavatappi noodles and originally created sauces. We also offer seasonal hot winter soups and gourmet shredded salads on which the dressing hits every spot. All pasta and most salad entrees start vegetarian.
